CORE VALUES

The Core Values are a set of principles that guide in creating educational programs and environments at Edison State. They include communication, ethics, critical thinking, human diversity, inquiry/respect for learning, and interpersonal skills/teamwork. The goals, objectives, and activities in this course will introduce/reinforce these Core Values whenever appropriate.

TOPIC OUTLINE

This course is a comprehensive overview of all major areas of content and practice for the Respiratory Care program. Specific topics covered will be determined for each course by needs identified for each class. The course will culminate in completion of mock written and simulated practice exams.
