

# Notice of the Board of Nursing Professional Licensure Requirements

As of July 1, 2020, the U.S. Department of Education implemented new regulations that professional nursing programs (PN, RN and APRN) must adhere to if they participate in Title IV HEA funding, and if the program is:

- designed to meet educational requirements for a specific professional license or certification that is required for employment in an occupation; or
- Is advertised as meeting such requirements

This new regulation applies to programs using all modalities, including online, in-person, or a combination of both. Regulation 34 CFR 668.43 (a) (5) (v) will require the nursing program to provide:

1. a list of all states/jurisdictions where the institution's curriculum meets state educational requirements for professional licensure or certification,
2. a list of all states/jurisdictions where the institution's curriculum does not meet state educational requirements for professional licensure or certification, and
3. a list of all states/jurisdictions where the institution has not made a determination of whether the curriculum meets educational requirements.

Additionally, a direct disclosure to the student in writing is required in regulation 34 CFR 668.43(c) by the education institution if the program leading to professional licensure or certification falls in one of the latter two categories above.

Edison State Community College's Associate Degree Nursing Program meets the requirements for the NCLEX in Ohio. We have not determined the ability to test in other states. If you would like to know if our program will meet the Board of Nursing requirements for testing in another state please go to <https://www.ncsbn.org/14730.htm> and look at the license requirements for each state via the drop down menu.
